Our Vision

We will continue to be the industry leader in innovative educational workspaces bringing a refreshing change, a new perspective, a better choice and a smart investment for the market. We enable leaders to empower, engage, train and retain their students and valuable human resources.

Warranty = 10 years

Minor assembly required = 🔧
Let’s design stimulating learning spaces that invite more movement.

Dr. Dieter Breithecker is a German scientist, an expert in health and movement. He heads the German Federal Institute for the development of movement and posture in Germany.

His research shows the need to stimulate regular changes in posture and to use furniture that promotes spontaneous movement and muscle contractions.

Even small movements like fidgeting improve results.
Active Learning – SHIFT+
Furniture for 26 students (34’x22’ room size)

**Shift+ Tables**
1. Interact
2. BaseStation (Tech)
3. Fusion Flip

**Shift+ Landscape/Transfer**
1. Transfer (Straight)
2. Landscape (60°)
3. Transfer (60°)

**Shift+...more**
1. PantoMove-LuPo
2. Hokki stools
**Shift+ ThumbPrint**
- Student table (Convex/Concave)
  - (wxd) = 38 x 23¼
- **Colour Groups**

PANTOSWING-LUPO
- Forward flexing cantilever chair
- Linear rocking movement
- Two component glides are silent and non-marking
- Available in 6 sizes

Colour Groups
Plastic: 11,12
Frame: 42,43,44

PANTOMOVE-LUPO
- Dynamic chair allows dampened rocking/tilting in any direction
- Increases blood circulation and oxygen supply to the brain through constant muscle activity
- Available with casters or glides silent and non-marking

Colour Groups
Plastic: 11,12
Frame: 42,43

COMPASS-LUPO
- Same double wall air-cushion seat shell
- Available in 6 sizes
- Available with silent and non-marking glides or casters

Colour Groups
Plastic: 11,12
Frame: 42,43,44
B1 CHAIR

- The B1 chair seamlessly adapts to each movement and follows the rhythm of the body.
- The seat and back are flexible and independent.

The principle of dual suspension allows the seat to move forward while the back tilts backward resulting in dynamic positioning which is comfortable and ergonomic. These qualities make a chair that is useful in the school or office. Soft and elegant, it looks good, regardless of the business environment.

Colour Groups
Plastic: 11,12
Frame: 42,43,44
**HOKKI STOOL**

The Hokki stool facilitates controlled mobility with safe rounded surfaces that strengthen balance and the musculoskeletal system. It has a slightly curved top covered with synthetic soft cushion for a comfortable and pleasant seat.

The sturdy polypropylene stool is friction welded, strong and scratch-resistant, fully recyclable. The bottom has a synthetic thermoplastic base which is safe for all floor types.

Easy to carry thanks to the corrugated edge of the seat for better grip, which also discourages rolling. The stool design makes it easy to reconfigure spaces, for group or independent work.

Available in all plastic colours shown in colour group 14, and in 5 different heights; 12”, 15”, 18”, 20” & 24”.

**Colour Groups**

Plastic: 14
FORTÉ
- Vertical stacking
- Full tubular steel structure on perimeter of seat and back
- Waterfall front edge
- Molded seat back with lumbar support
- Concealed seat rivets
- Pivoting glides in nylon, felt or steel

Colour Groups
Plastic: 10
Frame: 41

N2
- Economical stacking chair
- Plastic seat with sloping front
- Pivoting glides in nylon, felt or steel
- Concealed rivets

Colour Groups
Plastic: 10
Frame: 41
**ECOL DESK**

The unique shape of the ECOL desk offers multiple configurations for collaborative learning and space savings. With a choice of wheels, book boxes or hooks, it has become one of our most popular models. Also ideal for computer labs.

Options include: book basket, backpack hook, adjustable height & casters.

**Colour Groups**
Laminate: 50  
Edge: 30  
Frame: 41

**ECOL Collaborative Learning System**

ECOL invites teachers and students to continually create their own varied learning environments.

---

**TANGO SQUARE**

Adjustable height table for sitting or standing use. Centre component for groups of 6 and more ECOL desks.

Becomes a standing-height group table and mobile lectern for the small groups or for the whole class.

**Colour Groups**
Laminate: 50  
Edge: 30  
Frame: 41 except chrome
EXPO CHAIR

For today’s active learning needs.

- Comfortable and ergonomic flexing seat shell
- Many colours available – see page 37
- Robust construction – will not break in educational application
- Available with casters or glides
- Available in 4 leg or swivel base with pneumatic height adjustment.

Colour Groups
Plastic: 10
Frame: 41
COSMO-X

The Cosmo-X delivers a highly reliable work surface through a simple yet carefully engineered design. 1” thick industrial grade particle board and high pressure scratch resistant laminate with 3mm Edge band edge for superior security, durability, strength and hygiene. The steel frame has a non-removable adjustable glide and a durable powder coat finish.

Colour Groups
Laminate: 50
Edge: 30

Student Furniture

Collège de Montréal, Montréal QC
**UNO-Bean**

Using the same simple and durable leg as the Uno-M, the uno-bean adds some fun with an organic shaped top allowing multiple curved configurations and layouts.

**Colour Groups**

Laminate: 52  
Edge: 42,43,44

---

**UNO-M**

The simple construction of the Uno-M is very durable. It has a standard work surface made of unique LignoDur material which is 100% recycled material and is so hard it is virtually indestructible.

- Wire book baskets optional
- Backpack hooks optional
- Also available with unique chair suspension
- Powder coated frame
- Available in 6 fixed heights

**Colour Groups**

Laminate: 52  
Edge: 42,43,44
901 table system with optional chair suspension and Compass-VF chairs.
SERIE 901
A modern, expandable table system. Shown opposite with optional chair suspension system for ease of cleaning and moving. Standard 30” height. Lower fixed heights and adjustable heights available.

Colour Groups
Laminates 52,55
Frame: 42,43,45

NETWORK
A European table systems that adds a modern and contemporary feel to your space. Made by VS in Germany for quality. Standard 30” height. Lower fixed heights available.

Colour Groups
Laminates 52,55
Frame: 42,43,45
**SitAndStand**

A breakthrough in educational desking, the SitAndStand permits infinitely variable height adjustment. A gas cylinder silently lifts the table and allows for standing work height. A safety catch also prevents unintentional release. Standard wheels on front make this a great table for flexible environments.

- Powder-coated frame
- LIGNopal resin coated melamine/polyurethane top
- 4 degree inclined top with pencil tray
- Optional book boxes

**Colour Groups**

Laminate: 52
Frame: 42,43

---

**RondoLift**

An innovation for educators, the RondoLift table permits infinitely variable height adjustment. A gas cylinder silently lifts the table and allows for standing work height. A safety catch also prevents unintentional release. Standard locking casters make this a great table for flexible environments.

- Powder-coated frame
- LIGNopal resin coated melamine/polyurethane top
- Round, oval or square top design
- Optional locking drawer
- Locking casters standard. Glides optional

**Colour Groups**

Laminate: 52,54
Frame: 42,43
Team table and Puzzle table can be used single or grouped for interactive and informal collaboration. The organic shape of the table is undefined lending itself to a creative and energetic work environment. Available as standard table height or standing height with lower shelf.
### GENERAL PURPOSE (GP) TABLES
Robust table with full frame design and 1” laminate surface.

**Wood Seating**

**WD-39**

With a higher back and seat profile, the WD-39 is a great choice for libraries, training rooms, auditoriums or anywhere extra comfort is required.

- Stackable 10 high without arms
- Painted frame or optional chrome
- Chair linking available

**Colour Groups**

Wood: 56
Frame: 43,44,45

---

**COMPASS-VF**

Using the same beech plywood shell as PantoSwing-VF and PantoMove-VF the Compass-VF features a simple design with 4 legs suitable for training rooms, cafeterias and classrooms.

**Colour Groups**

Wood: 55,56
Frame: 43,44,45

---

**PANTOMOVE-VF**

Utilizing the same shell as the Compass-VF, the PantoMove gas lift chair was designed to allow for dampened rocking/tilting in any direction (side to side or back to front). The result is a durable swivel chair that functions like no other.

**Colour Groups**

| Wood: 55,56 | Frame: 43,45 |

---

**CREPE**

Crepe has a flowing shell surface, which is exquisitely tapered from the center to the top of the back and front of the seat. Available in several veneers, multiple finish colors and an optional upholstered onlay.

**Colour Groups**

Wood: 55,56
Frame: 43,44,45

---

**M2**

Striking 2-Tone finishes are revealed through the intriguing negative spaces cut in the chair back that serve as a handle for easy maneuvering. The generously scaled contoured plywood shell with a gentle flex has a waterfall front edge that evenly and comfortably supports the back of the legs. Optional coordinating table set.

**Colour Groups**

Environmental Responsibility

AQUEST DESIGN is aware of our corporate responsibility to the environment and future generations and is committed to minimizing our environmental footprint in all our operations.

Corporate guidelines and priorities

We have identified sustainable green measures that are guidelines and priorities for our company to minimize our impact on the environment.

- Our products are designed to ensure sustainability of at least 10 years in a rigorous academic or public use. The durability of the products purchased is an environmentally important principle for the long-term reduction in waste. Products are Ansi/Bifma tested.

- Manufacturers are chosen for their sustainability, lean and recycling methods in order to reduce the impact our products have on the environment from manufacture to end user.

GREENGUARD and SCS certifications mean a product has been tested for VOC’s (Volatile Organic Compounds) to ensure it has a safe amount of emissions to be used in school environments. Reducing emissions of VOC’s, formaldehyde and phthalates from furniture ensure these products are safe for use in schools and offices as well as protecting the environment.

We choose manufacturers that are SCS and/or GREENGUARD certified.

ANSI/BIFMA testing ensures that a product meets durability cycle testing and will stand up in the environment for which it is intended.
Opening the mind to the possibilities
